Development & Construction

Care Concepts - Marion Lauder House, Wythenshawe

We were delighted to be chosen to construct the first phase of a new 12 bedroom extension to the existing Marion Lauder Care Home which incorporated a new Day centre, Residents lounge, Management offices and Kitchen facilities to the existing Care Home.

Working closely with the Designers and the Client Management team, careful consideration was given to the scheme and the numerous specialist installations.

Internally, natural daylight to the Entrance, Day centre and Lounge area together with the first floor corridor was achieved by way of bespoke Beech screens. The aluminium framed entrance lobby and the provision of roof lights, all complimented the sympathetic lighting scheme. Further essential requirements were to adopt the existing addressable fire alarm and nurse call system and integrate these into a new system. An 8 person lift was also installed together with assisted bathroom facilities.

Phase one was satisfactorily completed and handed over on time to the delight of all concerned. As a direct result of the success of the first phase and the standard achieved, we were appointed to continue on to Phase two of the contract, a further 12 room facility of identical construction albeit with further specialist installations and requirements.
